active projects

Chain Five

released 1/21/18

My latest App Store release. Chain Five is a modern take on the classic card and board game Sequence. Play against friends online, or locally by sharing your device with others.

Portfolio Website

launched 5/5/17

My personal website hosted on GitHub Pages. Built using HTML, CSS, and JavaScript. Accessible on the web at kylejohnsonapps.com.

awards & honors

Apple WWDC 2017 Scholarship Recipient

One of 350 student developers selected to attend Apple's 2017 Worldwide Developers Conference.

"To qualify, applicants had to create an interactive scene within a Swift playground. Entries were judged on technical accomplishment, creativity of ideas, and written responses."

University Honors

2015-2019

Dean's List

Fall 2015, Fall 2016, Spring 2017, Fall 2017, Fall 2018, Spring 2019
