University of Wisconsin–Eau Claire

Computer Science, Software Engineering, B.S.

May 2019

3.8 GPA, University Honors

Innovative Computer Software - Eden Prairie, MN

Software Developer • 3 yrs, 10 mos

June 2019 - Present

- Developed iOS applications from conceptualization to deployment, with a strong understanding of **Swift**, **Objective-C**, Xcode, and various iOS frameworks and APIs
- Proficient in maintaining Android apps with expertise in **Java**, **Kotlin**, and Android Studio
- Experience creating GWT-based websites in Eclipse, with a strong understanding of **HTML**, **CSS**, and **JavaScript**, to design and develop intuitive user interfaces
- Utilized **Jenkins** for continuous integration and deployment. Wrote **bash** scripts as needed to assist with the rapid deployment of applications. Familiarity with App Store Connect and Google Play Console to finalize applications for release
- Familiarity with **AWS** services such as **Elastic Beanstalk**, **Cloudwatch**, and **S3** to monitor and diagnose server stability, and assess crash logs
- Extensive experience working with **PostgreSQL**, crafting queries, writing migrations, and updating data in both test and production environments
- Reliance on **git** for version control, and comfortability working in both a terminal environment (fish shell, vi), as well as with GUI-based clients (Fork for git, Visual Studio Code)
- Comfortability diagnosing and responding to issues escalated by our support team, as well as taking initiative on issues when in discussion with upper management

Intern • 4 mos

May 2018 - Aug 2018

- Gained experience programming iOS apps using Swift and Objective-C

University of Wisconsin–Eau Claire - Eau Claire, WI

Web Developer | Learning & Technology Services • 2 yrs, 3 mos

Mar 2017 - May 2019

- Learned Ruby on Rails and Drupal while assisting the university's web team in weekly sprints

Tech Support Representative | ResCom Help Desk • 1 yr, 7 mos

Sep 2015 - Mar 2017

- Offered laptop cleanup and printer assistance to campus residents and employees

Additional Skills

- Significant experience working with and troubleshooting macOS and Windows
- Attended WWDC 2017, gaining insight into specific Apple technologies, frameworks, and best practices
- Adept using Photoshop/Pixelmator Pro for basic design work
- Passion for side projects involving raspberry pis, LED matrix displays, **Python** scripting, and building websites with the **Svelte** framework (component based like React/Vue)
